How to prepare the donation jar ...

Print out this label at the "Best" quality setting from an
inkjet printer.

1. Fold the label in half along the dotted line — where it
says, "Fold along this dotted line."

2. Tape this label on the outside of a jar.

3. Place the donation jar anywhere that will get the most
donations. For starters, try placing the donation jar on
your work desk, in a shared kitchen area, at school
events, and during church functions. Always be aware of
where the donation jar is. Be sure to collect the donation
jar before you leave.

4. Finally, take pictures of where you placed the donation jar
and post them on our Facebook page.
